APPENDIX XXVIII

(Vide answer to Q. No. 305.)

OFFICIAL MEMORANDUM.

Reference—Correspondence ending with letter C. No. 2612/1106, dated 28th April 1931, from the Chief Medical and Sanitary Officer.

It is not likely that a medical man with a short training for a period of six months would be able to tackle the anti malarial problem successfully. The Diwan thinks that the most promising line of advance would be to have an anti-malarial scheme formulated for the State by some well-known Malarial Expert after studying local conditions. The Chief Medical and Sanitary Officer is requested to offer his views on the proposal and to report whether he has any idea what it would be likely to cost.
